¹ Independent Power Producers. See Glossary.

² Electricity sales to ultimate customers reported by electric utilities and other energy service providers.

³ Commercial and industrial facility use of onsite net electricity generation; and electricity sales among adjacent or co-located facilities for which revenue information is not available.

⁴ Energy losses that occur between the point of generation and delivery to the customer, and data collection frame differences and nonsampling error.

⁵ Public street and highway lighting, other sales to public authorities, sales to railroads and railways, and interdepartmental sales.

Note: Because vertical scales differ, graphs should not be compared.
